Chris Rainey

Healing for the Post-Abortive Man

As the abortion debate has intensified, the heart of the Pro-Life movement has changed. Angry, solemn protests with graphic and condemning posters have given way to a more prayerful, peaceful approach that offers women both hope and a helping hand. This shift is no doubt partially responsible for the steady decline in abortions over the last 3 decades.

But many are seeing the need for an additional shift in focus. **Author Chris Rainey reminds us that for every abortion, a man is involved.** Like women, men involved in an abortion often find themselves plagued with guilt and regret. **It is Chris's life mission to help these men find freedom.**

His book, *Healing the Father*, is written as a conversation with a man, who processes experiences differently from a woman. Reaching the hearts of men on this issue could be a real game-changer in the abortion debate!

As men find healing, they find their voice, which can impact generations to come! For more insight on this topic, please listen to Focus on the Family's daily broadcast, *Fatherhood Lost: Abortion's Lasting Impact on Men*, found at www.focusonthefamily.com.

About Chris Rainey:

Chris experienced firsthand both the trauma of the abortion of his child and the healing that is possible through God's forgiveness. He is now an author, speaker, and contact counselor for assistance centers that provide help for men as well as women.
